

Holidays on the yacht with your children

We offer special cruises only for families with children

Independently of the number of children, we invite you on the board and offer the company of other families with children in the similar age.

During the cruise both parents and children can learn how to sail , in the evenings adults can have a chance to relax in their company and we have many additional games and activities for kids.

The route of the voyage and the everyday schedule is arranged according to the age of children, weather condition etc. We know that many hours on the lake can be boring for the youngest so we have more stopovers in interesting places with infrastructure designated for children.
