

Holidays under sail with your children!!!

Doesn't matter how big family you have - you want to go with your second half and your three children or spend the week with your son, or maybe you look for a good company not only for your children but also for you - we have a solution for all these options.

We offer a place on yacht with other family who have children in the similar age. You pay less than booking a yacht only for your family and you meet new people

[We also offer training cruises for inland skipper certificate for families with children](#)

Another advantage of this type of cruises is that children have company and we organize many different activities - games, contests, trips only for them. Parents have time to relax in marinas, kids have fun.

We realize that children get bored quite quickly so our programmes of cruises routes are adapted to their abilities and wishes. More often than normal we have breaks in marinas where you can find many tourist attractions for young people - aqua parks, amusement parks etc.

During cruise both you and your children can learn sailing skills because you will sail with professional skippers who can teach younger and older.
